

EE580/980 S2 Miniproject --- Report assessment sheet

Group: _____

Student 1: _____ Contribution: _____

Student 2: _____ Contribution: _____

FILTER DESIGN IN MATLAB (35%)

1	LP IIR filter design	missing; or the filter does not meet the specifications at all; or there are other fundamental issues	It does not fully meet the specifications; or there are other minor issues	Correct and it fully meets the specifications
2	BP IIR filter design	missing; or the filter does not meet the specifications at all; or there are other fundamental issues	It does not fully meet the specifications; or there are other minor issues	Correct and it fully meets the specifications
3	HP IIR filter design	missing; or the filter does not meet the specifications at all; or there are other fundamental issues	It does not fully meet the specifications; or there are other minor issues	Correct and it fully meets the specifications
4	Impulse response plot of LP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
5	Impulse response plot of BP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
6	Impulse response plot of HP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
7	Magnitude response plot of LP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
8	Magnitude response plot of BP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
9	Magnitude response plot of HP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
10	Phase response plot of LP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
11	Phase response plot of BP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
12	Phase response plot of HP IIR filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
13	Pole-zero diagram of LP IIR filter before quantisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
14	Pole-zero diagram of BP IIR filter before quantisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
15	Pole-zero diagram of HP IIR filter before quantisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
16	Pole-zero diagram of LP IIR filter after quantisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
17	Pole-zero diagram of BP IIR filter after quantisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct

18	Pole-zero diagram of HP IIR filter after quantisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
19	LP: Frequency plot of filtered signal (wgn)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
20	BP: Frequency plot of filtered signal (wgn)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
21	HP: Frequency plot of filtered signal (wgn)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
21	LP+BP: Frequency plot of filtered signal (wgn)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
23	LP+HP: Frequency plot of filtered signal (wgn)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
24	BP+HP: Frequency plot of filtered signal (wgn)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
25	LP+BP+HP: Frequency plot of filtered signal (wgn)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
26	Critical comments to plots	missing; or not pertinent; or there are other fundamental issues	Not fully corrects; or correct and sufficient, but could have been more in depth	Fully correct and pertinent

FILTER IMPLEMENTATION IN CCS (38%)

27	Implementation of 4s buffer	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or there are other minor issues	Correct
28	Use of PRDs	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or there are other minor issues	Correct
29	Use of HWI/SWI interrupts	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or there are other minor issues	Correct
30	The overall implementation matches the system diagram provided	missing; or fully incorrect; or there are other fundamental issues	Not fully; or there are other minor issues	Fully
31	Implementation of IIR filter/difference equation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or there are other minor issues	Fully correct
32	Critical comments to filter implementation	missing; or not pertinent; or there are other fundamental issues	Not fully corrects; or correct and sufficient, but could have been more in depth	Fully correct and pertinent
33	Magnitude plot (in frequency domain) of input signal	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
34	Magnitude plot (in frequency domain) of output signal filtered with LP filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
35	Magnitude plot (in frequency domain) of output signal filtered with BP filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
36	Magnitude plot (in frequency domain) of output signal filtered with HP filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
37	Magnitude plot (in frequency domain) of output signal filtered with LP+BP filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct

38	Magnitude plot (in frequency domain) of output signal filtered with LP+HP filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
39	Magnitude plot (in frequency domain) of output signal filtered with BP+HP filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
40	Magnitude plot (in frequency domain) of output signal filtered with LP+BP+HP filter	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or missing/incorrect labels	Fully correct
41	Critical comments to plots	missing; or not pertinent; or there are other fundamental issues	Not fully corrects; or correct and sufficient, but could have been more in depth	Fully correct and pertinent

PROFILING AND OPTIMISATION (21%)

42	Profiling of all 7 filtering configurations, before optimisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or not all 7 filter configurations included; or there are other minor issues	Fully correct and relevant
43	Profiling of all 7 filtering configurations, after optimisation	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; or not all 7 filter configurations included; or there are other minor issues	Fully correct and relevant
44	Use of PRAGMAs	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; effectiveness not proven; reporting lacks detail; there are other minor issues	Fully correct and effective use
45	Use of other optimisation technique(s)	missing; or fully incorrect; or there are other fundamental issues	Not fully correct; effectiveness not proven; reporting lacks detail; there are other minor issues	Fully correct and effective use

ZIP FILE SUBMISSION (6%)

46	Submission of ZIP file containing all relevant C and Matlab code	Missing	Partial code only	Full code
----	---	---------	-------------------	-----------
